DIFFERENT PATHS, COMMON PURPOSE

TO KALON CAB AND STORIES WITH SAL + ANDY

These two friends epitomize what it means to be **serious stewards of the soil** ... separate paths converging, and united by a shared, passionate commitment to farming, family, and the land of this sacred valley.

It's nearly impossible to overstate the influence of **Andy Beckstoffer** and **Salvador Renteria** on Napa Valley grape growing. **Renteria "The Barber,"** an immigrant from Jalisco, Mexico, brought a level of innovation, hard work, and an instinctual ability for farming and people, eventually founding one of the largest and most respected vineyard management companies in the Northern Bay Area. From a different path, an NVG founding father, **Beckstoffer** brought foresight, vision, and business acumen, becoming an early, critical leader in the evolution of the Napa Valley to a world-class grape growing region.

Round up your STOMP squad to bid on this **indescribable chance** to celebrate these forefathers of Napa Valley's legendary farming families, plus a collection of **commemorative To Kalon** to mark this timeless moment for years to come.

Sal and Andy have created a **one-of-a-kind commemorative bottling** of **10 cases of prized To Kalon** cab. The To Kalon heritage vineyard has achieved legendary status, commanding one of the highest prices per ton in the valley. There's a reason. It sits on an absolutely blessed piece of Oakville earth with soil and exposure undeniably perfect. Just ask the select few eponymous wineries lucky enough to sniff this sacred fruit.
